

The Massachusetts Speech-Language-Hearing Association is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. See course information for number of ASHA CEUs, instructional level and content area. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

Developing Executive Control Skills in Children with Language and Learning Disorders

Karole Howland, Ph.D

Boston University
Sargent College of Health and Rehabilitation Services
635 Commonwealth Avenue, Boston, MA 02215

Saturday, October 16, 2010

8:30am – 3:00pm

This workshop is offered for .5 CEUs, Intermediate level, professional area

Presentation Summary

This seminar will focus on developmental changes in ECP throughout childhood and adolescence. The presenter will describe ECP, particularly focusing on developmental stages in acquiring inhibition, planning, working memory, sustained attention, and self regulation abilities. Each of these skills will be related to speech-language development, academic learning and social cognition. The presenter will review evidence that development of ECP is not governed solely by neurocognitive maturation, but also is influenced by experience, environmental expectations, and most importantly for our purposes, specific skill training. Methods to build executive control skills into the regular classroom routine and into speech-language therapy sessions will be presented. A particular emphasis will be placed on re-framing our understanding of “behavior problems”, “attentional problems” and “emotional problems” in children. Rather than focusing on behavior management strategies, the seminar will empower SLPs to teach an executive skill set that will help these children adapt successfully to their current and future learning environments.

Schedule

8:00am	Registration / Continental Breakfast
8:30-10:00	What are executive control processes and what are all those neuropsychological tests really asking the child to do? What happens when executive control breaks down? ADHD and executive control disorders: What is the overlap and what are the differences between the two?
10:00-10:15	Break
10:15-11:45	Developmental stages in executive control. The relationship of executive control and social information processing in typically developing children and those with ASD. Analyzing language samples to identify vulnerabilities in ECP: Is the problem about language, organization or both?
11:45-1:00	Lunch on your own
1:00-3:00	Developmentally appropriate methods and strategies to improve executive control skills across the grades.

Learner Outcomes

1. Participants will describe the stages in the development of executive control skills, including: inhibition, planning and working memory.
2. Participants will identify formal and informal methods of assessing executive control skills, particularly in the context of language sample analysis.
3. Participants will explain the relationship between executive control skills, social cognition, and academic success.
4. Participants will build executive control development into their speech-language therapy sessions and their pragmatic groups.
5. Participants will educate classroom teachers about the influence of executive control skills on academic performance.
6. Participants will support classroom teachers in building executive control training into the curriculum at each grade level.

Developing Executive Control Skills in Children with Language and Learning Disorders

Registration

Check one:

- Member registration \$125 *
Discount Code _____
- Non-member registration \$150
Payment received before September 30
- Non-member registration \$160
Payment received after September 30)
- Student-member registration \$20
Free if you volunteer to help with the program. Call 781-647-7031 for details.

Payment Method:

- Check enclosed
- P.O.# _____
- Charge my Visa / Master Card (*circle one*)

Card Number _____

Exp. date: _____ CVV Code: _____

Signature: _____

Name _____

Address _____

City _____ State _____ Zip _____

Phone _____ Email _____

*Enter the MSHA Member discount code to receive a \$5.00 discount.

Return registration form and payment to:

MSHA
